

CellGuard-NR™

Supports Natural Cell Repair and Regeneration* with Niagen®

HEALTHY AGING*

CellGuard-NR™ is uniquely formulated to support the body's normal cellular repair process, antioxidative status, and healthy aging.* This formula contains clinically relevant amounts of Niagen® (a form of nicotinamide riboside chloride [NR]), resveratrol (as Veri-te™), and pterostilbene. NR is a variation of vitamin B3 (niacin), and it is a building block to nicotinamide adenine dinucleotide (NAD+).

NAD+ is found in every living cell and is essential to many important cellular processes. NAD+ plays a role in more than 500 reactions in the body, including gene expression, stress response, and the body's normal DNA repair process.*

Resveratrol is a bioactive plant compound found in grape skin and berries (such as blueberries and raspberries) and is also found in peanuts. It is known for its role in supporting a healthy response to oxidative stress and a normal inflammatory response.* Research suggests it may also support the body's normal processes of cellular regeneration and repair.* Pterostilbene is another plant-derived compound that is structurally similar to resveratrol. This highly bioavailable molecule has been shown to support antioxidant status, a healthy inflammatory response, and healthy cellular function.*

Together, the nutrients within CellGuard-NR™ help support a healthy cell cycle, the body's normal cellular repair process, and a healthy response to oxidative stress, along with healthy aging.*

Benefits*

- Promotes the body's normal cellular repair and maintenance process
- Helps support healthy aging
- Promotes healthy antioxidative status
- Supports healthy cell regeneration
- Helps promote healthy NAD+ metabolism

Recommended Use

Take 2 capsules per day with a meal or as directed by your health-care practitioner.

Warning: If pregnant or breastfeeding, consult your health-care practitioner.

NIAGEN® is a registered trademark of ChromaDex, Inc. Patent: See www.ChromaDexPatents.com. Veri-te™ is a trademark of Evolva or its affiliates in the US and other countries.

Highlights

- Provides 300 mg of Niagen®, a form of nicotinamide riboside chloride for optimal cellular health*
- Includes synergistic compounds to support oxidative status and cellular maintenance*
- 200 mg of resveratrol as Veri-te™ and 50 mg of pterostilbene to support the body's normal cellular repair and regeneration processes*
- Gluten-free, dairy-free, and soy-free
- Non-GMO
