

Zen

Hemp-infused Chocolate Supplement to Promote a Sense of Calm*

Fx Chocolate® Zen is a delicious, cannabinoid-infused chocolate supplement that promotes a sense of calm and overall well-being.* Fx Chocolate® Zen is a synergistic blend of 60% cacao and 10 mg of broad-spectrum, THC-free phytocannabinoids per serving to support the body's stress response.* This broad-spectrum formula boasts a full range of phytocannabinoids without detectable levels of the psychoactive compound delta-9 tetrahydrocannabinol (THC) per square. The cannabinoids in Fx Chocolate® Zen are derived from 100% non-GMO hemp flowers that are sourced

from American farms, grown under the 2018 Farm Bill, and compliant with hemp regulations in various states.

Fx Chocolate® contains zero grams of sugar and is sweetened with allulose, a sweetening agent that is found naturally in jackfruit, figs, and raisins, with no bitterness or unpleasant aftertaste. The chocolate supplement delivery system is a novel and convenient way to receive the benefits of bioactive ingredients found in nutrients and herbs, especially for individuals who are unable to swallow capsules or softgels.
