

# LV-GB Complex™

Supports Bile Flow and Toxin Elimination\*

Ⓛ GGC090 | 90 capsules

The liver is considered our body's primary filter that cleans our blood, removes harmful substances, and turns food into energy. The gallbladder stores and releases bile, a digestive juice that helps our bodies break down fats and absorb the fat-soluble vitamins A, D, E, and K.

LV-GB Complex™ provides a unique blend of nutrients required to keep bile flowing smoothly and support the liver's ability to eliminate fats and toxins.\*

## LIVER/DETOXIFICATION\*

Supports individuals without a gallbladder\*

Promotes healthy detoxification and bile flow\*

Promotes fat digestion and nutrient absorption\*

Supports liver and gallbladder function\*

May support those experiencing occasional bloating, gas, or GI upset after eating fatty meals\*
