

Metal-X-Synergy™

Supports Heavy Metal Detoxification*

LIVER/DETOXIFICATION*

Metal-X-Synergy™ is formulated to support the body's natural clearance of toxic metals such as aluminum, arsenic, cadmium, lead, and mercury.* This unique formula is designed to support healthy detoxification and elimination pathways.* The ingredients work together to help the body clear the total heavy metal burden and support antioxidant status without the common complaints associated with the use of harsh synthetic chelating agents.*

Chelation refers to a process where a compound can form a stable bond with a metal ion, such as a toxic metal. Once bound with the metal ion, the chelating compound can then help remove the metal from the body.

Chlorella is green algae that contains certain phytonutrients. Chlorella may bind to heavy metals after they are released from tissues to help support proper excretion.*

Glutathione supports antioxidant status in the body, consisting of three amino acids. It helps support the liver in detoxifying and eliminating heavy metals and other toxins.*

N-acetyl-L-cysteine (NAC) is an amino acid that supports healthy liver function and demonstrates chelating properties.* NAC also helps support healthy glutathione status.*

R-lipoic acid promotes overall antioxidant status in the body.* Additionally, it has demonstrated chelation properties to support the detoxification of heavy metals.*

Garlic is rich in sulfur compounds, which help promote the binding and removal of heavy metals.* Garlic provides nutrients that support antioxidant status, including promoting glutathione production.*

Benefits*

- Supports the body's natural clearance of toxic metals
- Promotes healthy detoxification and elimination pathways
- Promotes antioxidant status

Highlights

- Features glutathione, N-acetyl-L-cysteine, R-lipoic acid, and garlic powder
- Features organic, broken cell wall chlorella for enhanced bioavailability*
- Gluten-free, dairy-free, soy-free, non-GMO

Recommended Use

Take 4 capsules per day with meals or as directed by your health-care practitioner (divided dosing recommended). Take at least 2 hours before or after other medications or supplements.

Consult with your health-care practitioner about your specific circumstances and any questions you may have regarding this product.
