

Trifolamin™

3 Forms of Vitamin B12 Plus Folate

FOUNDATIONAL HEALTH*

Trifolamin™ is a synergistic combination of three bioavailable forms of vitamin B12, including methylcobalamin, hydroxycobalamin, and adenosylcobalamin, with a patented active form of folate as [6S]-5-methyltetrahydrofolate (5-MTHF). Vitamin B12, also known as cobalamin, is a water-soluble micronutrient that is essential for cellular repair and function, cellular energy metabolism, and neurological function.* It is not produced by humans and must be obtained from dietary sources or supplementation. Folate, or vitamin B9, is one of the most important cofactors to support the optimization of vitamin B12 status. The form of folate (5-MTHF) used in Trifolamin™ is a bioidentical form that is ideal for supplementation.

The ingredients in Trifolamin™ support methylation reactions, which provide critical functions for DNA synthesis and repair, cellular energy metabolism, nerve cell structure and function, and red blood cell production. Folate and vitamin B12 are also essential for the regulation of homocysteine levels, which play a role in cardiovascular health.*

This product is designed to support neurological and cellular health in a great-tasting orange-flavored lozenge for superior absorption.* The lozenge delivery system of Trifolamin™ allows for absorption to begin upon ingestion as well as bound by a protein secreted in the saliva that carries vitamin B12 to the gastrointestinal tract.

Benefits*

- Supports healthy levels of vitamin B12
- Promotes neurological health
- Supports healthy cellular energy metabolism
- Promotes cellular repair and function
- Promotes healthy cognition and mood
- Supports healthy fetal development

Recommended Use

Take 1 lozenge per day or as directed by your health-care practitioner. Allow lozenge to dissolve slowly and completely in mouth and swallow.

Highlights

- Synergistic combination of three highly bioavailable forms of B12 plus folate
- Provides 680 mcg of 5-MTHF and 3,000 mcg of vitamin B12 per serving
- Provides forms of vitamin B12 that are found in nature: methylcobalamin, hydroxycobalamin, and adenosylcobalamin
- Lozenge delivery for superior absorption
- Gluten-free, dairy-free, and soy-free
- Non-GMO
- Suitable for vegans
- No artificial sweeteners
